Hurrah for The Mountains!

The noble and eloquent address of Ex-Governor Bradley at the Berea Commencement is one which will long be remembered by all who heard it. At the opening of the meeting a prayer was offered, in which the desire was expressed that one thousand boys and girls should that day make up their minds to strike out for further education. Governor Bradley eloquently referred to this prayer, and certainly did his part towards stirring up the ambition of the boys and girls.

It was very encouraging to hear his words of commendation and hope for the mountain region. Of course he spoke of the mountains of Kentucky, but the mountains of Kentucky form only a small part of the great mountain region of the South; and it is believed by those who know the mountains from north to south, that the people of the Kentucky mountains are at the head of the procession—the most able and enterprising of them all.

What the mountain people need is education—and the kind of education which Berea is giving. We must have our own young men trained so that they can develop the industries of agriculture and woodwork and so make use of the resources of our rich country, and not have it done by outsiders and foreigners.

During the past year Berea has been able to fulfill every promise, and to provide for all the 825 students who have made their way to its doors. This has been done largely because more students come in the fall than formerly, when there is more room and more work which can be given to students who need to earn some money while attending school in order to help themselves along. It used to be thought that young people did not need to go to school until winter, but now we are finding out that the fall is the best time to study. The Fall Term begins on the 11th of September, and the Winter Term on the 11th of December.

Miss Robinson has received an opportunity for an exhibit of Homespun at the Pan-American Exposition. It is to be found in the central court yard of the Manufacturers and Liberal Arts Building, immediately to the right as one enters from the south, and is a part of the exhibit of the National Arts Club, of New York City. The coverlet included in this exhibit was woven by Mrs. Anderson, of Jackson County.

A Case Calling for Sympathy.

Mrs. Davis, who with her husband and child lives on Henry Bicknell's place on Silver Creek, is in distressing circumstances. Mrs. Davis is afflicted with epilepsy and one day last week was seized with a fit and fell into the fire, burning her right hand so seriously that amputation became necessary. Sunday last Mrs. Davis and Robinson took off the injured member above the elbow. A child about a year and a half old was in Mrs. Davis' arms when she fell, and received severe burns on the head. This is a case calling for brotherly love and help. "Inasmuch as ye did it unto one of the least of these * * * ye did it unto me."
